Summary: The innovative program described in this book revolutionizes the the treatment of sexual dysfunction. During eleven years of daily clinical work, more than five hundred couples have been treated at Masters and Johnson's Reproductive Biology Research Foundation in St. Louis. Here the relationship itself is the patient. The authors stress that there is no uninvolved partner when sex is a problem. Therefore they treat the partners even if only one appears to be sexually dysfunctional. And their therapy techniques have proven successful in 80 percent of all cases treated. All results of success or failure reported in Human Sexual Inadequacy Are substantiated by a unique five-year patient follow up program. The concept and format of the therapy program are examined in detail in the first two chapters of the book. Included are discussions of the qualifications for co-therapists and accounts of history-taking techniques and round table talks held by the co-therapists and the couple. A full description follows of the instructions given...
