Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Electric Lighting Next to the human need for food, shelter and clothing, comes the need for artificial light. The meeting of this requirement, upon a large scale, becomes an engineering proposition and electric lighting stands prime among various agencies used therefor, when illuminants are classified according to their effectiveness, adaptability, flexibility and efficiency. There are few engineering activities which have advanced more rapidly during the last few years than have the art and practice of electric lighting. Illuminants have been steadily improved and refined. New types of lamps have been developed giving better colors of light, more efficient light production, cheaper units and a greater range of sizes. Principles of illumination have been studied and applied in the better solution of lighting problems. Indirect lighting, semior complete, has introduced great possibilities into the handling of both small and large installations. The economic value of good lighting is better appreciated. Color is beginning to play an important part in lighting schemes. It is destined to become even more widely utilized. There are excellent books which satisfactorily...
